Prevention No Alcohol Antibacterial Mouth Rinse is a cosmetic and is regulated by the FDA under the rules of the cosmetic regulations established by the FDA. This product is not considered flammable under the OSHA Hazard Communication Standard.

SECTION III – PHYSICAL/CHEMICAL CHARACTERISTICS

Boiling Point: NK
Vapor Pressure: NK
Vapor Density: NK
Solubility in Water: Very soluble

Specific Gravity: 0.935-0.945
Percent Volatile by Volume (%): NK
Evaporation Rate: NK
Appearance and Odor: Colorless with mint odor

SECTION IV – FLAMMABILITY AND REACTIVITY

Flash Point: none
Stability: Stable
Incompatible Materials to Avoid: none

Explosive Limits: none
Unusual Fire Hazards: none
Hazardous Decomposition/By Products: none

SECTION V – HEALTH AND SAFETY DATA

The main ingredients of Prevention No Alcohol Antibacterial Mouth Rinse (Zinc, Sodium Lauryl Sulfate, Sodium Citrate, Hydrogen Peroxide, Glycerin and Sodium Saccharin) should not be used by anyone with known allergies to these substances. All of these ingredients are metabolized in the body and the literature has not shown any cases of these substances being retained in the body.

Any individual with a deficiency in the enzyme catalase should not use the rinse. This is a rare condition and seen mostly in Japanese patients.

Excessive smokers sometimes have tissue irritation from using Hydrogen Peroxide (Prevention No Alcohol Antibacterial Mouth Rinse has 0.5% Hydrogen Peroxide). There have not been any reports of tissue irritation from excessive smokers using Prevention No Alcohol Antibacterial Mouth Rinse. The practitioner should evaluate the oral tissues of all patients with a history of heavy tobacco use before recommending Prevention No Alcohol Antibacterial Mouth Rinse.

Prevention No Alcohol Antibacterial Mouth Rinse has been used by all age groups, and to date, there has not been any reports of adverse reactions from daily use of Prevention No Alcohol Antibacterial Mouth Rinse. If any symptoms occur from the daily use of Prevention No Alcohol Antibacterial Mouth Rinse, the individuals should stop using the product immediately and consult their dentist or other health professional. All FDA Safety Studies have been completed and the FDA has placed Prevention No Alcohol Antibacterial Mouth Rinse in Category I for safety.

SECTION VI – SPECIAL PROTECTION INFORMATION

Respiratory Protection: none required
Eye Protection: none required
Other Protective Equipment: none required

Ventilation: none required
Protective Gloves: none required

NA-Not Applicable

NK – Not Known

THE SUBMISSION OF THIS MSDS MAY BE REQUIRED BY LAW, BUT THIS IS NOT AN ASSERTION THAT THE SUBSTANCE IS HAZARDOUS WHEN USED IN ACCORDANCE WITH PROPER SAFETY PRACTICES AND NORMAL HANDLING PROCEDURES. DATA SUPPLIED IS FOR USE ONLY IN CONNECTION WITH OCCUPATIONAL SAFETY AND HEALTH.
