Vapor Pressure: NK	Percent Volatile by Volume (%): NK
Vapor Density: NK	Evaporation Rate: NK
Solubility in Water: very soluble odor	Appearance and Odor: Clear light blue-green color with mint odor

SECTION IV – FLAMMABILITY AND REACTIVITY

Flash Point: none	Explosive Limits: none
Stability: Stable	Unusual Fire Hazards: none
Incompatible Materials to Avoid: none	Hazardous Decomposition/By Products: none

SECTION V – HEALTH AND SAFETY DATA

The main ingredients of Prevention Everyday Mouth Rinse (Zinc Chloride, Sodium Lauryl Sulfate, Sodium Citrate, Hydrogen Peroxide, Glycerin and Sodium Saccharin) should not be used by anyone with known allergies to these substances. All of these ingredients are metabolized in the body and the literature has not shown any cases of these substances being retained in the body.

Any individual with a deficiency in the enzyme catalase should not use the rinse. This is a rare condition and will be seen mostly in the Japanese.

Excessive smokers sometimes have tissue irritation from using Hydrogen Peroxide (Prevention Everyday Mouth Rinse has 0.5% Hydrogen Peroxide). There has not been any report of tissue irritation from excessive smokers using Prevention Everyday Mouth Rinse. The practitioner should evaluate the oral tissues of all patients with a history of heavy tobacco use before recommending Prevention Everyday Mouth Rinse.

Prevention Everyday Mouth Rinse has 1.66% alcohol or 0.5 ounces per 16 ounce bottle of mouth rinse. The practitioner should evaluate all patients with a history of excessive alcohol use before recommending Prevention Everyday Mouth Rinse to an individual with a history of alcohol abuse. To date, patients who have undergone alcohol abuse treatment have not shown any adverse symptoms from the daily use of Prevention Everyday Mouth Rinse.

Prevention Everyday Mouth Rinse has been used by all age groups, and to date, there has not been any reports of adverse reactions from daily use of Prevention Everyday Mouth Rinse. If any symptoms occur from the daily use of Prevention Everyday Mouth Rinse, the individuals should stop using the product immediately and consult their dentist or other health professional. All FDA Safety Studies have been completed and the FDA has placed Prevention Everyday Mouth Rinse in Category I for safety.

SECTION VI – HEALTH AND SAFETY DATA

Respiratory Protection: none required	Ventilation: none required
Eye Protection: none required	Protective Gloves: none required
Other Protective Equipment: none required	

NA-Not Applicable

NK – Not Known
