Hazardous ingredients as defined by OSHA, 29 CFR 1910.1200:

Prevention Feminine Spray is an OTC product and is regulated by the FDA under the rules of OTC regulations established by the FDA. This product is not considered flammable under the OSHA Hazard Communication Standard.

---

### SECTION III – PHYSICAL/CHEMICAL CHARACTERISTICS

Boiling Point: none

Vapor Pressure: NK

Vapor Density: NK

Solubility in Water: very soluble

Specific Gravity: 0.935-0.945

Percent Volatile by Volume (%): NK

Evaporation Rate: NK

Appearance and Odor: colorless with mint odor

---

### SECTION IV – FLAMMABILITY AND REACTIVITY

Flash Point: none

Stability: Stable

Incompatible Materials to Avoid: none

Hazardous Decomposition/By Products: none

Explosive Limits: none

Unusual Fire Hazards: none

---

### SECTION V – HEALTH AND SAFETY DATA

The main ingredients of Prevention Feminine Spray (Zinc Chloride, Sodium Lauryl Sulfate, Glycerin) should not be used by anyone with known allergies to these substances. All of these ingredients are metabolized in the body and the scientific literature has not shown any cases of these substances being retained in the body.

Prevention Feminine Spray has been used by all age groups, and to date, there have not been any reports of adverse reactions from daily use of Prevention Feminine Spray. All FDA Safety studies on this Formula have been completed.

If any symptoms occur from daily use of Prevention Feminine Spray, the individuals should stop using the product immediately and consult their physician or other health professional.

---

### SECTION VI – SPECIAL PROTECTION INFORMATION

Respiratory Protection: none required

Ventilation: none required

Eye Protection: none required

Protective Gloves: none required

Other Protective Equipment: none required

---

NA-Not applicable

NK – Not Known
