Core Values

- **We Value Diversity.** *We will actively promote an atmosphere of mutual respect for each other's differences, recognizing that our diversity creates a breadth of perspectives which strengthens our organization.*
- **We Value Teamwork.** *Teamwork is critical to our success. Trust and mutual respect for each other's responsibilities, functions, skills, and experiences are essential ingredients of teamwork.*
- **We Value Communication.** *Open candid communication flowing in all directions will be the norm. We emphasize that listening is a crucial component of the communication process.*
- **We Value Integrity.** *We will strive to be recognized as an organization of the highest ethical standards and unquestioned integrity.*

Commitment to Value

- *At Prevention Laboratories, LLC we believe that our first responsibility is to the consumer, our most valuable asset; the doctors, nurses, pharmacists, technicians, armed forces, mothers, fathers and all others who use our products and services. In striving to meet their needs, everything that we do must be of the highest quality. We must constantly be vigilant to the safety, efficiency and cost to the consumer and health professionals.*
- *Our responsibility is also to our employees, the women and men who work for and with Prevention Laboratories, LLC. Everyone must be considered the most important member of the Prevention Team and treated as such. We must recognize their merit and respect their dignities. We must strive to provide for them a sense of security in their jobs and working relationship. We must always be vigilant in our search for ways to help our employees fulfill their family responsibilities and provide excellent service to our vendors and customers. Our customers and vendors must feel free to make suggestions and complaints at any time. We must be just and ethical.*
- *We must maintain in good order the property we are privileged to use; protecting the environment and natural resources of America. Prevention Laboratories, LLC must strive to make your tomorrow healthier while practicing its commitment to values.*

Prevention Laboratories **FEMININE SPRAY**

Prevention Feminine Spray is a special chemical blend, formulated to help treat and relieve inflammation of sensitive tissue in the genital area. It helps provide relief for burning, itching, and rash of the inflamed sensitive tissue of the genital area and control the etiological factors associated with the symptoms women experience.

Prevention Feminine Spray's anti-fungal, anti-viral, and anti-bacterial properties help maintain a healthy tissue cell balance as it controls the symptoms associated with inflammation of the genital tissue. Allowing chronic inflammation of the genital tissue can lead to increased infections and tissue change.

Individuals with an active life style should maintain good hygiene and tissue maintenance. Prevention Feminine Spray's unique formulation allows control of inflammation and infections, helping the normal tissue cells of the genital tissue maintain metabolic balance and health.
